SLEIGHTER ENGINEERING LAUNCHES NEW WEB SITE

www.sleighterengineering.com

VISIT US ONLINE...

Please accept my personal invitation to visit Sleighter Engineering online at www.sleighterengineering.com

Our Internet site is another part of our ongoing effort to find more effective and efficient ways to service our clients and better communicate to potential customers. Our

new web site reflects that focus, offering a variety of general and service specific information, much of which is fully downloadable for printing.

The site is the result of more than twelve months of combined copywriting, graphic design and web development processes geared to deliver you a compre-

hensive informational resource in an easy interactive format. I believe you will find the site both informative and useful.
