

EDUCATIONAL FACILITIES

Services: Civil Engineering/Site Design
Project Cost: 53 Million Dollars

Client: Uniontown Area School District
• Uniontown Area High School
• Ben Franklin Elementary School
• LaFayette Elementary School

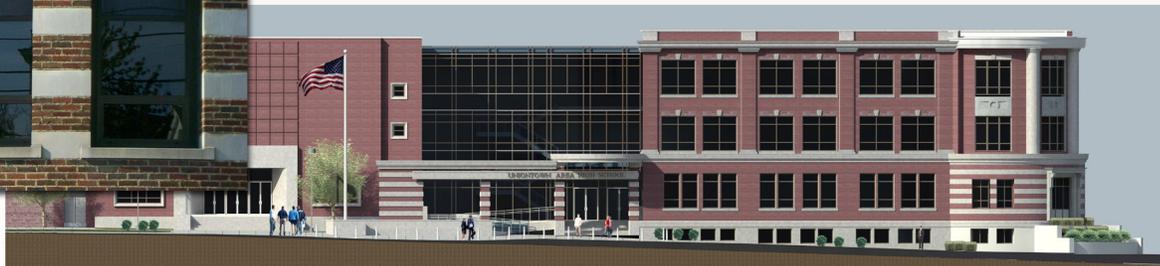

The PROJECT:

Sleighter Engineering, Inc. provided a range of civil and site related design services to meet the project needs for three schools. Our staff worked closely with the project architect and owner to develop design solutions on an expedited schedule. Additional permit related tasks were added during the project with delivery of all work within original deadline.

Design Tasks Included:

- Property Boundary & Topographic Survey
- Grading & Site Design
- Stormwater Management Plans
- Erosion & Sediment Control Plans
- Zoning Board Requirements & Approvals
- City Land Development Submissions & Approvals
- DEP Sewage Module Approvals
- Penn Dot High Occupancy Permits
- Landscape Planning
- Construction Administration
